WaterMart®
reverse osmosis system

5, 6 or 7 stages

purity, safety and peace of mind

Since 1991... *WaterMart® has been a trusted source of water expertise for homes and businesses. We offer objective, knowledgeable advice, the highest quality products, reasonable prices, plus an efficient and professional service team.*

Clean, healthy, great tasting water!

This system does an excellent job at removing virtually all chemicals from your drinking water. **BPA free.**

WaterMart® offers the cleanest water possible – the standard **5 Stage** Reverse Osmosis System will reduce the vast majority of impurities in our tap water such as chlorine, lead, mercury, aluminium, asbestos, pesticides, herbicides, pharmaceuticals, hormones, chloramines, trihalomethanes and many more. Unlike most filters, it will also remove inorganic contaminants such as nitrates and phosphates.

Lead free – The lead free designer faucet comes in a variety of finishes to match your kitchen taps.

Endless years of service – the highest quality, highest capacity standard sized filter cartridges are included.

This system is tested and certified by both the National Sanitation Foundation and the Water Quality Association.

Achieve even greater purity by adding an **ultraviolet light** for bacteria. Or add minerals back and create alkaline water by adding a **pH boosting filter.**

Installed by highly experienced professionals:

- Our installers are Certified by the Water Quality Association.
- We can usually install within a few days of placing the order.
- We show up on time and do the job quickly and cleanly.
- Over 90% of our business comes from happy client referrals.

Match your décor with one of our standard or upgrade designer faucets in mirror chrome or brushed nickel. More options are available.

WaterMart® standard 5 stage reverse osmosis system. More stages can be added (see reverse).

performance data sheet

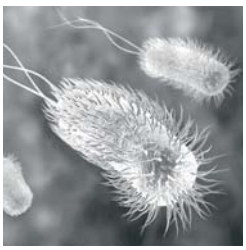
Some healthy options...

Optional Stage 6:

An alkalizing filter: Many of our clients are natural health professionals. More and more often they are advocating the health advantages of drinking more alkaline water. This will give you the best of all worlds – the cleanest water possible with alkaline, re-mineralized water.

Optional Stage 7:

An ultraviolet light gives added peace of mind. A WaterMart® ultraviolet light will protect your family from any threat of bacteria in drinking water.



Stainless filter housings:

Some people just feel more comfortable using stainless steel. If you like, we offer the system in stainless filter housings.

This system has been thoroughly tested on water from the **GTA**... we ensure the cleanest water!

Contaminant found by National Testing Laboratories in GTA Water	Result Value in mg/L in GTA water	Amount found by National Testing Laboratories in WaterMart® 5 stage reverse osmosis water
Aluminum	0.2	not detected
Chloramine	0.2	not detected
Chorine (total)	0.2	not detected
Fluoride	0.5	not detected
Sulfate	28.0	not detected
Bromodichloromethane	0.006	not detected
Chloroform	0.006	not detected
Total Trihalomethanes	0.006	not detected
Dichloroacetic Acid	0.003	not detected
Monochloroacetic Acid	0.005	not detected
Trichloroacetic Acid	0.002	not detected
Total Halogenic acetic acids	0.010	not detected

Testing done September 13, 2010 by National Testing Laboratories in Cleveland, Ohio.

Peace of mind... better health by reducing inorganic contaminants from your drinking water.

Contaminant	Average Influent (mg/L)	Average Effluent (mg/L)	Average % Reduction
Barium	9.4	0.58	93.8
Cadmium	0.03	0.0004	98.7
Chromium (hexavalent)	0.29	0.026	91.2
Chromium (trivalent)	0.32	0.017	94.8
Copper	3.0	0.033	98.9
Fluoride	8.6	0.4	95.6
Lead	0.15	0.002	98.7
Radium	25 Ci/L	5 pCi/L	70.0
Selenium	0.099	0.004	96.0
Turbidity	11 NTU	0.1 NTU	99.0
Total Dissolved Solids	739	45	93.8

Install a shower filter:

It is often said that we absorb more chlorine through our skin and lungs while showering than we do from drinking. A shower filter will effectively remove this chlorine and give you a more healthy shower.
