

# WATERMART HIGH CAPACITY RESTAURANT & CAFE WATER FILTER SYSTEM

## PURITY, SAFETY, PEACE OF MIND

Since 1991, WaterMart® has been a trusted source of water expertise for homes and businesses. We offer objective, knowledgeable advice, the highest quality products, reasonable prices and an efficient & professional service team.

Today's restaurant and cafe patron knows a good cup of coffee and knows quality drinking water. Even with great quality coffee beans and teas, low quality water can make the difference between a mediocre hot beverage and one that creates a regular customer. Also, many people drink only filtered or bottled water and dislike the taste of tap water. Good quality, great tasting water on every table is a small, marketable difference that helps distinguish you from the competition.

## CLEAN, HEALTHY, GREAT TASTING WATER

- Our most popular restaurant and coffee shop option
- Provides large quantities of high quality water at a very low price
- Makes great tasting coffees and teas
- Requires very infrequent service (cartridges are industry standard size, inexpensive and always available)
- Mounts easily under any cabinet
- Dimensions: 16 x 9 x 14 (W X D X H)

## THE HIGHEST QUALITY FILTERS = THE HIGHEST QUALITY WATER

- NSF tested and certified for material requirements
- 5 micron filtration to remove even the finest particles
- Chlorine reduction for >12,000 gallons
- Removes all bad tastes, odours and colours
