

WATERMART LAKE WATER TREATMENT SYSTEM FOR YOUR WINTERIZED COTTAGE

What makes this system ideal for your winterized cottage

- It provides clean, safe water without bacteria, cysts, colours, tastes, odours and chemicals
- The sediment filter and taste, odour, colour and chemical filter clean themselves - nothing could be less hassle than that!

STEP 1

Removes:

- All sand, silt & mud
- Zebra mussels

This system filters down to 5 microns with very little pressure drop.

It thoroughly cleans itself out periodically - no maintenance!

Dimensions: 9" x 56"

STEP 2

Removes:

- Taste, odour & colour
- Chemicals such as gasoline and pesticides

This system provides clean, colourless, odourless, chemical-free water from every tap in the cottage.

It thoroughly cleans itself out periodically ensuring that every litre of water is as clean as the last

Dimensions: 9" x 56"

STEP 3

Removes:

- Bacteria (such as E-coli)
- Cysts (such as Cryptosporidium & Giardia)
- Fungus, algae & virus

SAFE! 99.99999 percent reduction of bacteria, virus, cysts, fungus and algae.

Audible alarm to let you know immediately if something isn't working properly.

A lamp life countdown lets you know when it's time to change the bulb.

Dimensions: 3" x 23"

Call us for info and tips. We've been treating cottage water for over 20 years!
