

WATERMART LAKE WATER TREATMENT SYSTEM FOR YOUR SEASONAL COTTAGE

What makes this system ideal for your seasonal cottage

- It provides clean, safe water without bacteria, cysts, colours, tastes, odours and chemicals
- It requires infrequent maintenance - which is then easy and inexpensive
- It is very simple to winterize - it really takes minutes

STEP 1

Removes:

- Large diameter sand, silt & mud

Gets the large silt and sand out first so it doesn't clog the finer filters.

Saves you all kinds of time and money - makes the downstream filters last MUCH longer!

Self cleaning - just open the valve at the bottom and blow out the dirt.

Dimensions: 15"x5"x3" (HxWxD)

STEP 2

Removes:

- Fine sand & silt.
- Taste, odour & colour
- Zebra mussels
- Chemicals such as gasoline and pesticides

The washable sediment filter makes the system inexpensive to maintain.

Both filters are standard size - so replacements will always be available.

Very easy to change the filters.

Very easy to winterize.

Dimensions: 23"x16"x9" (HxWxD)

STEP 3

Removes:

- Bacteria (such as E-coli)
- Cysts (such as Cryptosporidium & Giardia)
- Fungus, algae & virus

SAFE! 99.99999 percent reduction of bacteria, virus, cysts, fungus and algae.

Audible alarm to let you know immediately if something isn't working properly.

A lamp life countdown lets you know when it's time to change the bulb.

Dimensions: 3"x23"

Call us for info and tips. We've been treating cottage water for over 20 years!
