

WATERMART 5 STAGE REVERSE OSMOSIS SYSTEM

CLEAN, HEALTHY, GREAT TASTING WATER !

- The system does an excellent job at removing virtually all chemicals from your drinking water.
- Perfect for drinking, washing vegetables, cooking and preparing baby formula.
- The included filters are all standard size, the highest quality and highest capacity
- The high quality designer faucet comes in a variety of finishes to match your taps.

PURITY, SAFETY, PEACE OF MIND

Since 1991, WaterMart® has been a trusted source of water expertise for homes and businesses. We offer objective, knowledgeable advice, the highest quality products, reasonable prices and an efficient & professional service team.

FIVE STAGES OF PURIFICATION

- A 1 micron sediment filter removes physical particles such as aluminum, asbestos, dirt and rust.
- A carbon block reduces chlorine, tastes, odours, colours and many organic chemicals such as hormones, pharmaceuticals, cosmetics, pesticides....and many, many more!
- Another carbon block provides more contact time to further reduce these organic chemicals.
- A Reverse Osmosis Membrane reduces a very high percentage of inorganic chemicals such as cyanide, arsenic, nitrate & lead
- A last carbon filter act as the final polishing step.

TESTED TO ENSURE THE THE CLEANEST WATER POSSIBLE

Given all the environmental issues today and the vast quantities of polluted water that has to be treated for the GTA, it's just not possible for treatment plants to remove all the unhealthy contaminants from the water supply. Also, chemicals like chlorine, ammonia and aluminum are all added during the treatment process. A WaterMart® 5 Stage Reverse Osmosis System can drastically reduce many of the leftover and added chemicals. Let us give your family *clean, healthy, & great tasting water.*

HERE IS THE STANDARD PERFORMANCE DATA SHEET

Contaminant	Average Influent (mg/L)	Average Effluent (mg/L)	Average % Reduction
Barium	9.4	0.58	93.8

These lists are copied from the Corporation of the Town of Markham Annual Regulatory Water Quality Report covering the period from January 1, 2009 to December 31, 2009 as tested by the York-Durham Regional Environmental Laboratory.

Markham gets its' water from the City of Toronto. What this really means is that one glass of Toronto City Water could contain all of these chemicals! (This water is also pumped to Thornhill, Scarborough, Richmond Hill, Oakridges & Newmarket).

The Watermart 5 Stage Reverse Osmosis System comes with Peace of Mind. It is Certified by Both the Water Quality Association and the National Sanitation Foundation.

System Tested and Certified by NSF International against NSF/ANSI Standard 58 for the reduction of the claims specified on the Performance Data Sheet
