**High performance filtration:** Multi-stage filtration removes common water contaminants and chlorine to dramatically improve water taste and odor.

**In-tank UV sanitization:** Waterlogic's in-tank UV technology acts against waterborne micro-organisms and bacteria, dispensing great quality water glass after glass.

**BioCote® protection:** The key plastic surfaces surrounding the dispensing area are infused with BioCote®, a silver ion additive that provides an effective barrier against microbes like bacteria and mold, which may cause odors or staining.

### Features:

- In-tank UV technology is highly effective against germs and bacteria. A UV lamp treats the water stored in the reservoir for fast, reliable and easy water purification
- BioCote® protected dispensing area
- Leak detection for peace of mind
